Chitkara University, Punjab

ABOUT ME

I am a Frontend Web Developer fueled by a deep passion for programming, particularly in the realm of functional programming. I thrive on delving into complex problems and view each project as an opportunity for personal growth and mastery. I have a good knowledge of tools like JavaScript, Node JS, Java. As an ambitious and perpetual learner, I eagerly embrace challenging tasks to continually enhance my skills and knowledge.

SKILLS

Technical Skills -

- React JS
- JavaScript
- HTML
- Java
- Data Structures
- Cascading Stylesheet (CSS)
- Git
- Linux

Soft Skills -

- Analytical and Problem Solving
 - Team Collaboration
 - Eagerness to Learn
 - Adaptability
 - Effective Communication
 - Writing Skills
-

PROJECTS

NEXT WORD PREDICTOR

- Developed a Next Word Prediction project aimed at enhancing typing experience on small devices like mobile phones.
- Implemented algorithms to predict the next word in a sentence fragment, reducing the need to type entire phrases.
- Enhanced user experience by minimizing typing errors and improving typing speed on mobile devices.
- Utilized JAVA and predictive modeling techniques to accurately suggest the most probable next word based on context.

REPUBLIC

- A website that provides transport charges and travelling time from Chitkara University to nearby destinations.
 - The motive behind Republic is to protect people from different states from high and unfair charges on transport.
 - Utilized HTML, CSS, and JavaScript to create the front-end structure.
 - Collaborated with a team of four individuals to develop this project.
-

EDUCATION

CHITKARA UNIVERSITY

Bachelor of Engineering in CSE
CGPA - 9.29 | 2021 - 2025

HARROW ENGLISH SCHOOL

Intermediate
80% | 2019 - 2021

CERTIFICATIONS

- Introduction to C++ for Chitkara University Excellence Certificate
- Foundation of User Experience (UX) Design
- Introduction to Python for Chitkara University Excellence Certificate
